

Number of the Day:

1. Standard form
2. Word/written form
3. Expanded form
4. Place value
5. Even or odd?
6. Draw it with base 10 blocks
7. 100 more; 100 less
8. Addition sentence
9. Subtraction sentence
10. Round to the nearest 1000, 100, and 10

Use a notebook or piece of paper to write and use the number of the day in these different ways. Write the date on each page.

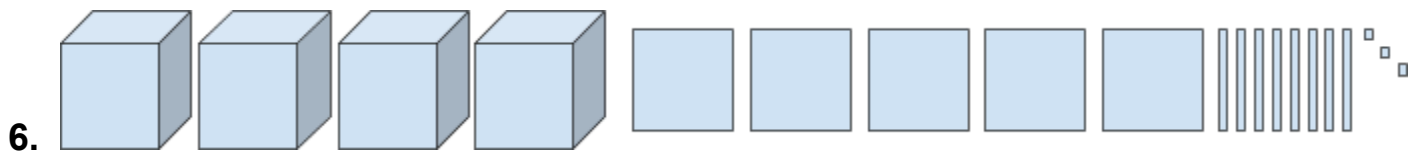

Here is an example using the number **4583**

1. 4583
2. Four thousand five hundred eighty-three
3. $4000 + 500 + 80 + 3$

4.

Thousands 1000s	Hundreds 100s	Tens 10s	Ones 1s
4	5	8	3

5. Odd (it ends with a 3)

7. 4683 ; 4483
8. $4500 + 83 = 4583$
9. $4583 - 300 = 4283$

10.

Nearest Thousand	Nearest Hundred	Nearest Ten
5000	4600	4580

 OR

1000	100	10
5000	4600	4580
